c. The present estimate refers to no specific intelligence sources, and clearly does not compromise any NOFORN material for which this Agency is responsible.

d. Although the estimate is an SNIE, this category of estimate has been released in the past subject to the understanding that no general precedent was thus created. (See e.g., IAC-M-209, 23 August 1955.)

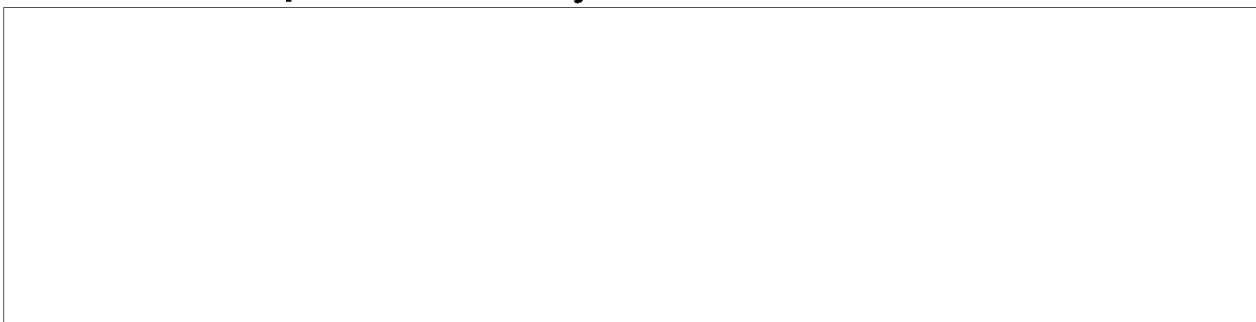

On the basis of these considerations, the Board preceives no objection from an intelligence viewpoint to the release of this estimate to the [REDACTED] and recommends such release.

c. None of the present estimate would compromise NOFORN materials for which this Agency is responsible. We are not able to determine whether there would be compromise of NOFORN materials for which other agencies are primarily responsible.

On the basis of these considerations, and subject to review by other agencies of the issue of compromise of NOFORN materials, the Board perceives no objection from an intelligence viewpoint to the release of this estimate and recommends such release.

4. The Board is reviewing the issues affecting release of NIE 88-56, "Probable Developments in Colombia"; 10 April 1956, and will submit its recommendation for consideration at the next following IAC meeting.
